Product Designer / UX Designer

Product Designer / UX Designer delivering **UX/UI** for **enterprise** and **healthcare** platforms, including data portals and workflow tools. Skilled in **interaction design**, **information architecture**, **wireframing**, **user flows**, and **prototyping** in **Figma**, partnering cross-functionally in **Agile/Scrum** teams.

Professional Experience

CVS Health

Product Designer (Senior Analyst – Digital UX Design) | *June 2023 – Present*

- Part of design across **PSET (Clinical Requirements)**, **A&BC (Member Growth Engine)**, and **A&BC (Enterprise Data Portal)**.
- Created wireframes, user flows, and high-fidelity prototypes in **Figma**.
- Ran stakeholder reviews to capture requirements and iterate quickly.
- Partnered with engineering and QA to ship implementation-ready designs in **Agile/Scrum**.

Interapt

Junior Product Designer (Apprenticeship) | *June 2022 – June 2023*

- Completed a product design apprenticeship embedded with CVS Health product teams.
- Supported discovery and delivery with wireframes, prototypes, and production-ready UI assets.

Additional Experience | *Mar 2021 – June 2022*

- Completed Collin College evening coursework (Intro to IT, Computer Science), a Data Analyst bootcamp, and the AT&T Summer Learning Externship; built strong customer communication through part-time retail work.

Appen

Data Processing Associate | *June 2021 – Oct 2021*

- Annotated and validated 200–300 voice-assistant queries/day; assessed user intent and edge cases to improve data quality.

Education

Southern Methodist University (SMU) — B.S. Psychology; B.A. Art

Skills
